

SAFEGUARD yourself from phishing scams!

Phishing is...

A cybercrime that dupes you into revealing sensitive information such as your Online Banking details, One-Time Password and more.

Received a call or text from an unknown person asking for financial details?
Get smart, don't share!

PROTECT YOURSELF WITH OUR SAFETY GUIDE

Never provide your personal or banking information to anyone.

Do not click on suspicious URLs sent through SMS as they could be links to install malicious applications to collect your personal and banking information.

Only download applications into your mobile devices from official app stores such as Google Play Store, Apple App Store and Huawei AppGallery.

Protect your mobile and web browsers by keeping your operating system updated.

Accidentally revealed your banking details?

Found unrecognisable transactions on your account statement?
