Each of the foregoing representations and warranties shall survive and continue to have full force and effect throughout the duration of this Agreement and will be taken to be repeated by the Customer on each such day throughout the duration of this Agreement.

19 Margins, Collateral And Security

19.1 The Bank may from time to time require the Customer or a Security Provider, and the Customer agrees (and shall procure any Security Provider to agree), to:

- (a) provide security or Collateral (or both) in such form as the Bank may in its absolute discretion require; or
- (b) maintain such Margin(s) (or to deposit with the Bank such amount of money, other assets, or additional security as the Bank may specify in order to maintain such Margin(s)) as the Bank may in its absolute discretion consider appropriate as security for all the Customer's present and future liabilities to the Bank (including but not limited to those arising from any Facilities extended by the Bank to the Customer and in respect of any trades or transactions entered into with or for the Customer, or for the Customer's Wealth Account and/or Wealth Portfolio(s)).

19.2 For the foregoing purposes, the Customer further agrees, where required by the Bank, to execute or furnish, or procure the execution or furnishing by any person(s) acting as Security Provider(s) for the Customer of, such security documents (including any transfer or other forms

and notices) as the Bank may from time to time specify and the Customer will, at the Customer's own expense, execute and do, or procure the execution and doing by such person(s) referred to above of, all such assurances, acts and things as the Bank may reasonably require for perfecting or protecting any security granted by the Customer or such person(s) in favour of the Bank or any of its nominees, or for facilitating the realisation and enforcement of such security.

- 19.3 In addition, the Customer undertakes to (and to procure any Security Provider(s) to):

- 19.4 Unless with the Bank's written consent, security, Collateral or Margin so provided is not to be withdrawn, sold, pledged, transferred, charged, disposed of or otherwise dealt with until all amounts owing by the Customer to the Bank are satisfied or paid in full.
- 19.5 Any Collateral given to the Bank shall be a continuing security, notwithstanding any intermediate payment or settlement of account, for the payment of all sums and the satisfaction of the Liabilities (including all liabilities incurred by the Customer in accordance with this Agreement) and Indebtedness and is to be in addition to and without prejudice to any other security which the Bank may hereafter hold in respect thereof. In the event that the Customer defaults under any credit facilities granted by the Bank, the Bank may (but is not obliged to) enforce its rights over any one or a combination of all of the Collateral provided in connection with this Agreement without further reference to the Customer.
- 19.6 The Collateral Value ascribed to each item of Collateral furnished shall be calculated as a percentage of its market value. Such percentage and market value shall be determined from time to time by the Bank in its absolute discretion. The determination of the adequacy and acceptability of Collateral shall at all times be at the absolute discretion of the Bank and the Bank may, in its absolute discretion, ascribe a zero Collateral Value to any item of Collateral.
- 19.7 The Bank may specify from time to time Margin levels to be established before a Facility may be utilised and to be maintained during the utilisation or availability of a Facility, failing which

the Bank may require topping up of Collateral or the repayment of obligations. The Bank may also specify the Margin which if exceeded will entitle the Bank to close out or liquidate positions and Contracts. These Margin levels may be varied by the Bank from time to time in its absolute discretion.

19.8 The determination of whether the Customer is in compliance with the Margin stipulated by the Bank shall at all times be at the absolute discretion of the Bank. If at any time the Bank is of the Opinion that the Collateral Value is not sufficient to comply with any Margin stipulated by the Bank (whether owing to the prevailing market value of the Collateral or otherwise), the Bank shall be entitled to take any one or more of the following actions without prejudice and in addition to all other rights powers and remedies of the Bank:

- (a) convert, upon notification to the Customer, any Facilities or loans extended by the Bank to the Customer from the base currency initially agreed between the Bank and the Customer to another currency;

For the avoidance of doubt, the Customer shall still be required to furnish and maintain such additional Collateral or to make such repayment even if the market value of the Collateral subsequently moves in the Customer's favour;
- (f) exercise all or any of its rights which it would have under Clause 25 below as though an Event of Default had occurred; and
- (g) adopt such other measures as the Bank in its absolute discretion deems fit.

demand has been made by the Bank for additional Collateral to cover any resulting shortfall, or (b) on any deficit balances in the Account in respect of any realised losses.

20.1 No representation is made by the Bank to the Customer or any Security Provider that the Bank will obtain guarantees from any other guarantors or that the Bank will obtain security for the liabilities of the Customer or any other Security Provider. Failure to obtain security or any additional guarantee (even if the Bank had intended to obtain it) or the discharge or release of any guarantee or security (or both) shall neither discharge any Security Provider from liability hereunder nor release any security provided by a Security Provider.

21.2 You agree that:

- (a) Termination of a Wealth Account will result in termination of all the Wealth Portfolio(s) maintained under that Wealth Account.
- (b) Termination of a Wealth Portfolio will result in termination of the MCCA and Services governing the Products and Contracts maintained in that Wealth Portfolio. The MCCA is a mandatory component of a Wealth Portfolio, therefore the MCCA cannot be terminated when the Wealth Portfolio is still maintained with Bank.
- (c) Where any Facility is granted by the Bank to the Customer and secured against the Customer's assets including the Products and Contracts in the Wealth Portfolio, cash in the MCCA and, where applicable, deposits in the MCTD, termination of the Wealth Portfolio and the Wealth Account is further subject to the terms and conditions in the Facility Letter and Security Documents. The Facility Letter and Security Documents shall prevail over matters affecting the Facility, including the Customer's assets in the Wealth Portfolio which are charged, mortgaged, assigned, pledged or otherwise secured in favour of the Bank as Collateral for the Facility.

21.3 Termination under the Agreement or any part thereof shall not discharge or affect the Liabilities and Indebtedness accrued prior to the date of such termination and shall be without prejudice to any Contract outstanding as at the date of termination. The Bank's authority or the authority of any of its nominees or agents to arrange for settlement or closing of any outstanding Contract shall not be affected thereby.

21.4 In connection with the termination of the MCCA and/or MCTD, the Bank shall have fully discharged its liability with respect to the MCCA and MCTD, by paying to the Customer in such form as the Bank may determine the amount of the then credit balances in the MCCA and/or MCTD provided that prior to such payment, the Liabilities and Indebtedness of the Customer to the Bank shall first be set-off from the amount payable, upon giving 7 calendar days' notice to the Customer. Payment as aforesaid by the Bank to the Customer shall constitute a valid, full and effectual discharge and release of the Bank's obligations to the Customer.

21.5 In connection with the termination of the Wealth Portfolio :

In the case of a Customer who terminates all his Accounts, Products and Services with the Bank

- (a) The Customer shall arrange for the transfer of existing Units or Bonds in the Wealth Portfolio, if any, from the Custodian to the Customer or the Customer's authorised agent or representative before termination date. If the Customer fails to complete such arrangements, the Bank may (at the costs of the Customer) transfer or redeem the Units or Bonds held in such manner as the Bank may think fit and the Bank is irrevocably

authorised to give necessary instructions to third parties on behalf of the Customer to execute documents and to do all such other things as the Bank shall at its absolute discretion deem fit, without any liability for any costs, expenses, losses or damages of whatsoever nature incurred or suffered by the Customer and pay the realisation proceeds to the Customer. If for any reason the Manager or Fund instructs the Custodian or the Bank to divest, transfer or otherwise dispose of any Units or any Fund investments in accordance with the terms and conditions governing the operation of such Fund, the Bank will seek the Customer's instructions on such matters and if no instructions are received within the time specified by the Bank, then the Bank will (and is irrevocably authorised by the Customer) procure the Custodian to redeem or transfer the relevant Units or Fund investments. In the case where Units are redeemed, the Bank will credit the proceeds to the MCCA to be handled pursuant to the preceding sub-clause 21.4. If the MCCA is closed for any reason whatsoever prior to the Bank's receipt of the proceeds, the Bank will pay the proceeds to the Customer in such form as the Bank may determine.

- (b) The Customer shall promptly issue to the Bank Instructions relating to the transfer and delivery of Securities held by the Bank, if any, to the Customer's account with a third party, failing which the Bank shall be entitled (but not obliged) to sell or dispose of any and all of the said Securities in any way and on such terms as the Bank deems fit. Thereafter the Bank is authorised to use the proceeds realised from any and every such sale and disposition to (i) satisfy all the costs and expenses incurred by the Bank arising from the sale and disposition as aforesaid; (ii) retain and apply the surplus in payment of all monies due or payable or which may become due or payable to the Bank; and (iii) in so far as the proceeds collected from the sale and disposition as aforesaid may yield a surplus over and above what is required for (i) and (ii) above, such surplus (the amount if determined in good faith by the Bank shall be conclusive against the Customer) will be paid into the MCCA to be handled pursuant to the preceding sub-clause 21.4. If the MCCA is closed for any reason whatsoever prior to the Bank's receipt of the aforesaid proceeds, the Bank will pay the surplus mentioned in (iii) above to the Customer in such form as the Bank may determine. The Bank will also be entitled to exercise the preceding rights forthwith, if the Bank is unable to inform the Customer (for any reason whatsoever) of the Bank's intention to terminate, or the Bank's termination of, the Wealth Account or Wealth Portfolio or provision of the Products or Services to the Customer, any Contract and/or any contractual relationship with the Customer and the Bank has made a good faith determination that the exercise of such rights is reasonably necessary to mitigate against any potential losses it may otherwise sustain.
- (c) Where applicable, the obligation of the Bank of safekeeping or otherwise in relation to the Securities shall forthwith expire and the Customer agrees to bear the risks arising

from the continued holding of the Securities by the Bank and subject to the rights conferred upon the Bank under the Agreement.

- (d) Subject to the Bank being fully paid all Liabilities and Indebtedness under the Agreement or otherwise howsoever, the Bank shall deliver, or procure the delivery of all documents relating to the Securities and which are in the custody of the Bank to the Customer or his/her agent as instructed in writing to the Bank.
- (e) If the Customer fails to take delivery of the Securities within fourteen (14) days after notice to take delivery has been given by the Bank, the Bank is authorised to do the following:
 - (i) to despatch any of the Securities by registered mail to the address last notified by the Customer in writing (or, in such other mode(s) and/or method(s) acceptable to the Bank from time to time); or
 - (ii) to sell or dispose of in such manner of sale or disposition as it deems fit all or any of the Securities upon such terms and conditions as the Bank may see fit, and to apply the proceeds of any such sale or disposition, after deduction of the expenses thereof, in payment of all monies now or later due payable actually or contingently whether under the Agreement or not and in the event that there is excess proceeds, the Bank may hold such proceeds as security for the Customer's Liabilities and Indebtedness, or at the Bank's option despatch a cheque for the amount of the excess by registered mail to the last address notified by the Customer in writing (or, in such other mode(s) and/or method(s) acceptable to the Bank from time to time).
- (f) The Customer acknowledges that it is his/her duty to take delivery of the Securities. Where such Securities or cheques are dispatched as aforesaid to the Customer, the risk of loss, misplacement, conversion, destruction, damage or any other losses whatsoever and howsoever arising shall be borne by the Customer.
- (g) The Customer agrees that the Bank shall be entitled to treat all Securities as fungible with any other Securities of the same issuer, class and denomination and the Customer shall accept delivery of the Securities of the same issuer, class and denomination in place of those Securities deposited by the Customer with the Bank. The Bank shall have no duty to keep or retain in its possession the Securities kept in custody for the Customer so long as the Bank keeps and maintains Securities of a like nature or character.
- (h) The Customer's existing Structured Investments and negotiable instruments of deposit purchased or entered into prior to termination of Wealth Account, shall continue in effect

until maturity of the respective Contracts for such Structured Investments and negotiable instruments of deposit. The Customer shall give instructions with information of his deposit account with any other bank or financial institution within Malaysia, into which any coupons or interest or maturity proceeds from such Contracts shall be credited. If the Customer fails to give such instructions, the Bank shall have fully discharged its liability with respect to the payment of such coupons or interest or maturity proceeds under the Contracts, by paying to the Customer in such form as the Bank may determine, provided that prior to such payment, the Liabilities and Indebtedness of the Customer to the Bank shall first be set-off from the amount payable, upon giving 7 calendar days' notice to the Customer. Payment as aforesaid by the Bank to the Customer shall constitute a valid, full and effectual discharge and release of the Bank's obligations to the Customer.

In the case of a Customer who terminates Wealth Account and Wealth Portfolio but continues to maintain other Account(s), products and services with the Bank

- (i) The Customer accepts that with effect from termination of the Wealth Account, the Bank will no longer be able to facilitate the Customer's purchase of or entering into any agreement for Products and Contracts (including certain Unit Trusts, Bonds, negotiable instruments of dealing, Structured Investments and other Structured Products) which are required to be maintained in a Wealth Portfolio under a Wealth Account.

Any coupons, dividends, incomes or interest or maturity proceeds from such Products and Contracts will be credited into the Customer's Day-to-day Banking Account.

21.6 If the Customer wishes to terminate and close any Wealth Account, the Customer shall then provide instructions to the Bank in a manner acceptable to the Bank from time to time and comply with such procedures as the Bank may determine from time to time at its sole and absolute discretion, for the proper termination and closure of the Wealth Account and the Wealth Portfolio(s), MCCA and where applicable, MCTD, Products, Services and Facility within the Wealth Account. 8.1 The Customer confirms and acknowledges that:

- (a) where any deposit is converted into any currency other than the currency of the original deposit at the Customer's request at any time, the value of the deposit credited to the Customer's Account may diminish as a result of foreign exchange fluctuations; and
- (b) any increase or decrease in the value of the deposits as a result of a fluctuation in the exchange rate affecting such currency will be entirely for the Customer's account and risk.

8.2 The Customer will comply with all the following conditions, overnight limits and regulations which are subject to change by Bank Negara Malaysia from time to time. The Bank may impose any other conditions and/or overnight limits for purpose of controlling and monitoring.

- 8.3 The Bank may reject or reverse any deposits or proceeds in the absence of clear and specific instructions or which may result in a breach of the aforesaid conditions or overnight limits (including caused by crediting of interest or fluctuations in exchange rate).
- 8.4 The opening and operation of the foreign currency denominated MCCA and MCTD are also subject to the banking practices and laws of Malaysia, Foreign Exchange Notices issued pursuant to Section 214 of the Financial Services Act 2013, rules of the Association of Banks in Malaysia and the rules and regulations of other regulatory bodies.
- 8.5 The Customer shall undertake to ensure compliance to all applicable Foreign Exchange Notices at all times for all transactions performed for Account(s) maintained with the Bank.

9 Dormancy and Unclaimed Monies

- 9.1 If the Customer does not initiate any transaction or activity within his/her Wealth Portfolio within such period specified by the Bank, the Wealth Portfolio will turn dormant, including the MCCA and MCTD within the Wealth Portfolio.

You acknowledge and confirm to the Bank that you have read the Risk Disclosure Statement and understand and accept the risks involved in transacting Structured Investments with the Bank from time to time; and
 - (b) in addition to the foregoing, you further agree that each Structured Investment is also conditional upon your acceptance and acknowledgement of any specific risk disclosure statement in such other documents which the Bank may furnish from time to time.

Specific Risk Disclosure for Structured Investments

- 1.3 Returns are not guaranteed. The rate of returns of each Structured Investment is not fixed or certain and is subject to fluctuations. The returns can be substantially lower than deposit rates or even zero for the entire tenure of the investment as the rate of returns is dependent on the performance of the underlying asset or rate or index linked to the investment.
- 1.4 Where the Structured Investment has a conversion feature and is Non-Principal Protected - the Non-Principal Protected Structured Investment is a non-traditional investment comprising two key features – firstly, an investment in an investment/base currency and secondly, a possible payment or delivery, as the case maybe of the investment (both principal and returns) in an Alternate Currency or underlying reference to which the investment is linked, at a pre-agreed exchange rate or pre-agreed Strike Rate and not at the prevailing exchange rate or price. It carries with it risks of fluctuation in the alternate currency or underlying reference to which the investment is linked.
- 1.5 If you hold the Structured Investment to maturity, the entire principal amount invested will be repaid to you on maturity date, only if the Structured Investment is stated as Principal Protected.
- 1.6 Where the Structured Investment has a “Callable” feature, you fully understand that the Bank has the option (i.e. a right but no obligation) to early terminate this Structured Investment. If the Bank exercises the early termination option, the Structured Investment will be early terminated before the stated maturity date with repayment of principal amount plus accrued returns on the early termination date selected by the Bank.
- 1.7 The net returns from a Structured Investment would also be affected by the transaction costs (i.e. commission, fees and other charges) charged by the Bank and applicable withholding taxes.
- 1.8 Different investment may have different tax implications and the tax implications may be dependent on your business activities and the transaction in question. You should consult your tax adviser to understand the tax implications.
- 1.9 You would incur additional risk of currency fluctuations if the transaction involves different currencies or where you carry on your business or keep your accounts in a currency other than the base currency in which the transaction is denominated.
- 1.10 You are taking the credit risk of the Bank not being able to fulfill its payments obligations under the Structured Investments’ transactions.

- 1.11 Structured Investments which involve your sale of an option to the Bank in exchange for higher returns or premium can be very risky. If you sell an option, the risk can be unlimited and disproportionate to the premium or higher returns offered by the Bank. By selling an option, you will be locked in at the pre-agreed strike price for the duration of the Structured Investments and you will give up any gains resulting from any increase or decrease in price of the underlying asset compared to the pre-agreed strike price.
- 1.12 There are differences between normal deposit and Structured Investments.
- 1.13 Any complaints against Structured Investments may be made to the Securities Commission (“SC”), by contacting the SC’s Complaints Department:
- (a) via phone to the Aduan Hotline 03-6204 8999
 - (b) via fax to 03-6204 8991
 - (c) via e-mail to aduan@seccom.com.my
 - (d) via online complaint form available at www.sc.com.my
- 1.14 No Claim on Capital Market Compensation Fund: You cannot claim compensation from the Capital Market Compensation Fund under the Capital Markets & Services Act, 2007 for any losses that you suffer as a result of any wrongdoing or fraud or misuse of moneys by the directors, officers, employees or representatives of the Bank. You can refer to the Bank’s Dispute Resolution Process at www.ocbc.com.my if you suffer monetary loss in the above circumstances.
- 1.15 You can lodge a complaint with the Securities Industry Dispute Resolution Center (SIDREC) at www.sidrec.com.my within 180 days of receiving a financial decision from the Bank if you are not satisfied with the Bank’s decision.

Risk Disclosure for Negotiable Instruments of Deposit (“NID”)

- 1.1 Each Negotiable Instruments of Deposit is accepted by the Bank on the basis that you have read, fully understood and agreed to these Terms and Conditions Governing Negotiable Instruments of Deposits (read together with the General Terms applicable to all Products and Services) and these Specific Risk Disclosure for Negotiable Instruments of Deposits. You acknowledge and confirm to the Bank that you have read the Risk Disclosure Statement Pertaining to Negotiable Instruments of Deposits (read together with the General Terms applicable to all Products and Services) and understand and accept the risks involved in placing Negotiable Instruments of Deposits with the Bank from time to time.

- 1.2 In addition to the foregoing, you further agree that each Negotiable Instruments of Deposit is also conditional upon your acceptance and acknowledgement of any Specific Risk Disclosure Statement in the Confirmation, the Term Sheet and / or such other documents which the Bank may furnish to your from time to time.
- 1.3 You agree to be solely responsible for considering carefully and seeking advice from your legal, regulatory, tax, business, investment, financial, accounting and other professional advisers as may be required regarding the risks of each Negotiable Instruments of Deposit before placing such Negotiable Instruments of Deposit with the Bank from time to time.

Specific Risk Disclosure for NIDs

1 Risk Warning Statement

This NID is principal guaranteed by the Issuing bank upon maturity only. If the NID is redeemed or sold prior to maturity, you may lose part of the initial deposit amount. The returns on this NID is uncertain and you risk earning no returns at all. You are reminded that this NID is not insured by PERBADANAN INSURANS DEPOSIT MALAYSIA.

2 Own Evaluation of Suitability of NID/FRNID by Depositor

You acknowledge (that the Bank does not hold itself out as advising or any of its employees or agents as advising or having the authority to advise you as to whether or not you should enter into any NID/FRNID and or any subsequent actions relating thereto or any other commercial matters concerned with such Investment.

3 Contractual Terms

You shall have the responsibility to fully understand the terms and conditions of the NID/FRNID to be undertaken, including the circumstances under which you may become obligated to make or take delivery of the underlying subject matter. You should therefore familiarise yourself with the terms and conditions of any agreement, contract or confirmation that you may enter into with the Bank. You must fully understand your rights and obligations under that agreement, contract or confirmation. You should consult your legal adviser or lawyer to fully understand your rights and obligations.

4 Transaction costs

Your net returns from NID/FRNID would also be affected by the Bank's fees and charges, the transaction costs (i.e. commission, fees and other charges) charged by the Bank and the counterparty and applicable withholding taxes.

5 Bank under no obligation to buy its own NID/FRNID

The Bank is not obliged to repurchase a NID/FRNID from you. You may not be able to liquidate a NID/FRNID prior to its stated Maturity Date if there are no interested buyers. As transactions are customised and not fungible, engaging in a transaction with another party to offset a transaction you have entered into with the Bank will not automatically close out those positions (as would be true in the case of equivalent exchange traded futures and options) and will not necessarily function as a perfect hedge.

6 Price Risks

The normal pricing relationships between the underlying NID/FRNID and the financial derivatives may not exist in certain circumstances. The absence of an underlying reference price may make it difficult to assess "fair" value and hence negotiate or sell the NID/FRNID in the secondary market. As the prices and characteristics of the NID/FRNID are individually negotiated and there may not be a central source for obtaining prices from other sources, there can be inefficiencies in their pricing. The Bank is under no obligation to quote prices for transactions in the secondary market and the Bank makes no representation or warranty and bears no responsibility or liability whatsoever, for prices quoted or that prices quoted by the Bank is correct or the best prices available to you. You have to make your own evaluation of the pricing and should take independent advice from your accountants, tax consultants, lawyers or other professionals. The Bank may make returns from the NID/FRNID no matter what result the transaction has from your point of view.

7 Tax Risks

Before entering into any NID/FRNID, you should understand the tax implications of doing so. Different NID/FRNIDs may have different tax implications and the tax implications may be dependent on your business activities and the transaction in question. You should consult your tax adviser to understand the tax implications.

8 Investment Risks

You shall be fully responsible for monitoring the performance and continuing appropriateness of your NID/FRNID. The Bank and its affiliates (including related companies) may hold positions in assets, securities, currencies, interest rates or other derivatives for itself or other clients which may not be consistent with any advice given by its employees or officers. Any risks

associated with and any losses suffered as a result of the Bank establishing any NID/FRNID on your instructions are for your account and is your sole responsibility.

9 No certainty in interest payments

You understand that NID/FRNIDs are a non-traditional deposit comprising three essential features which pose investment risks – firstly, the deposit is subject to an interest rate formula, secondly, no certainty on interest payments and the possibility of zero interest in the worst case scenario for any applicable interest period and thirdly, a possible early termination of the NID/FRNID by the Bank if the NID/FRNID is callable.

10 Nominal value of NID/FRNID amount repaid on stated Maturity Date

You understand that the nominal value of the NID/FRNID will be repaid to you on the stated Maturity Date provided you hold the NID/FRNID up to Maturity Date.

11 Negotiating NID/FRNID in secondary market may incur capital losses

You understand that negotiating or selling a NID/FRNID before its stated Maturity Date may result in diminution in the nominal value of the NID/FRNID. The loss is unascertainable and depends on the prevailing market condition.

12 Early Redemption by Bank

If the NID/FRNID has callable features, the Bank is entitled (**but is under no obligation**) to redeem the NID/FRNID in the manner and at such times stated in the Term Sheet. The Bank also reserves the absolute right to redeem NID/FRNIDs on any interest payment date and repay to you the nominal value together with interest proceeds (if applicable).

13 Risks of Interest Fluctuation

You understand and acknowledge that the tenor of the NID/FRNIDs and the interest rate is subject to the risk of fluctuations and there is a risk of zero interest. You have carefully and independently studied the interest rate movements, rate of return, understand the risks arising from movements in the rate of return and confirm that the NID/FRNID is suitable in light of your own financial and investment objectives.

14 NID/FRNID for Hold-To-Maturity

You understand that you should not establish any NID/FRNIDs with the Bank unless you have sufficient funds or liquidity so as to enable you to hold the NID/FRNID with the Bank until the

Maturity Date. Any sale of the NID/FRNIDs by you prior to the Maturity Date may result in you receiving less than the nominal value.

15 Market Risk

Payments or receipts under an NID/FRNIDs will be linked to changes in the value of one or more financial or commodity market prices, rates or indices or other underlying subject matter to which the NID/FRNID is linked and you will be exposed to price volatility in that market or subject matter. Such changes, which can be sudden and large, may cause you to suffer significant losses both in terms of the amounts you have to pay under the terms of the transaction being greater than the amounts you receive and the amount it might cost you to sell or unwind the NID/FRNID prior to its stated Maturity Date. Where a NID/FRNID is "structured" or made up of several instruments, you should be aware that there is risk associated with each instrument evaluated separately and the risk of the transaction evaluated as a whole.

16 Economic Risk

The prices and characteristics of over-the-counter transactions are individually negotiated and there is no central source for obtaining prices, there are inefficiencies in transaction pricing. The Bank consequently cannot and do not warrant that its prices or the prices it secures for you are or will at any time be the best price available to you. The Bank may make returns or profits from a transaction with you no matter what result the transaction has from your point of view.

17 Currency Risk

You would incur additional risk of currency fluctuations where you effect NID, FC NIDs or FRNIDs involving different currencies, or where you carry on your ordinary business or keep your accounts in a currency other than the base currency in which the transaction is denominated.

18 Risks on Option Transactions

Option transactions can be very risky and can be extensively customised. You should pay particular attention to the terms governing an option, especially to the terms on which an option may be exercised. If you are the purchaser of an option and fail to exercise the option or if the purchased option expires worthless, you will sustain a total loss of the option premium and transaction costs in purchasing the option. If an option is exercised by you, you would obtain a corresponding position in the underlying subject matter of such option. The risk of selling (writing) options is considerably greater than the risk involved in buying options. If you

buy an option, you cannot lose more than the premium. If you sell (write) an option, the risk can be unlimited. If the purchaser exercises the option, your obligation is to settle the option in cash or acquire or deliver the underlying contract. If the option is covered by a corresponding position in the underlying contract or by another option, the risk may be reduced and if the option is not covered your possible loss will be unlimited. The seller of a call option who does not have a long position in the underlying contract is subject to risk of loss should the price of the underlying contract be higher than the strike price upon exercise or expiration of the call option by an amount greater than the premium received for selling the call option. If you have a long position in the underlying contract, you are subject to the full risk of decline in the price of the underlying contract reduced by the premium received. In exchange for the premium received for selling the call option, you give up all potential gain resulting from an increase in the price of the underlying contract above the strike price. The seller of a put option who does not have a short position in the underlying contract is subject to risk of loss should the price of the underlying contract decrease below the strike price upon exercise or expiration of the option by an amount in excess of the premium received for selling the put option. If you have a short position in the underlying contract, you are subject to the full risk of a rise in the price of the underlying contract reduced by the premium received. In exchange for the premium received for selling the put option, you give up all potential gain resulting from a decrease in the price of the underlying contract below the strike price.

19 Securities

Where the NID/FRNID is linked to indices or other assets, you will be exposed to the volatility of the various stock exchanges or other financial markets in which the shares, stocks, warrants, bonds, debentures, notes, debt securities and other securities (collectively the "securities") are traded. In particular, the value of securities may experience downward movements and may under some circumstances even become valueless. There is therefore an inherent risk that losses rather than interest payments may be incurred as a result of buying or selling securities or buying or selling options on securities. In particular, you should refer to the paragraph on Market Risk to understand the impact which market forces may have on the securities. The Bank is entitled to act upon your instructions and you cannot assume that the Bank will warn you if your instructions are ill-timed or inadvisable for any reason or if the instructions are likely to cause you loss.

20 Credit Risk

You are taking on the Bank's credit risk. You are placing funds with the Bank and are therefore relying on the Bank's ability to pay any interest amount on interest payment date, if applicable, and the redemption amount on the maturity date.

Risk Disclosure for Fund

- 1.1 You acknowledge that the Funds are subject to investment risks and market risks, including possible loss of the principal amount invested. You represent and warrant that you understand and are fully aware of the risks involved in investing in Units and in the Fund and that you will obtain from either the Bank or the relevant Manager or Fund up-to-date versions of the Prospectus or any materials supplied by the relevant Manager or Fund that might exist on the date of the transaction and the date of the instructions given by you to the Bank. You acknowledge and agree that the Bank shall have no liability or responsibility whatsoever to you for any error, misstatement or omission in any Prospectus or materials prepared by or issued by any Manager or Fund.
- 1.2 You acknowledge the desirability of seeking independent financial or professional advice with respect to any dealing in Units or Fund or investments or investment opportunities. You acknowledge that any dealings in the Fund or Units is yours solely and exclusively based on your own judgment and after your own independent appraisal and investigation into the risks associated with such dealings or otherwise.

Risk Disclosure for Bonds

- 1.1 The Bonds are subject to the actual and perceived measures of credit worthiness of the issuer and the guarantor (if applicable). There is no assurance of protection against a default by the issuer / guarantor (if applicable) in respect of repayment obligations. In the worst case scenario, you might not be able to recover the principal and any profit if the issuer and the guarantor (if applicable) default on the bond. If the Bond is redeemed or sold prior to maturity, you may lose part of the principal.
- 1.2 For the opportunity to earn potentially higher returns than would be possible with a fixed deposit, you must be willing to accept the extra risks that apply to the original investment amount and the interest that the investment earns.

For convertible bonds only:

- (a) You have the right to convert convertible bonds into ordinary shares. The terms of the conversion are set out in the bond agreement when the bonds are issued.
- (b) The prices of convertible bonds are also affected by movements in the price of the common stock which the bond can be converted into. Generally, when the price of the common stock falls, the prices of the convertible bonds also fall.

For perpetual bonds only:

- (a) Perpetual bonds do not have a fixed maturity date and the issuer has no obligation to redeem (repay the original investment) them.

- (b) Perpetual bonds are more sensitive to movements in interest rates, so their prices are less predictable than a bond with a fixed maturity date.
- 1.3 There are foreign exchange rate risks for investing in a currency that is different from your base currency. The risks can result in a loss of your original investment.
- 1.4 You could lose some or all of your original investment if the issuer goes into default (for example, it goes into liquidation or is declared bankrupt). This means you are not guaranteed to receive the money you originally invested.
- 1.5 Prices for bonds are affected by movements in interest/profit rates. Generally, when interest/profit rates rise, prices of bonds will fall. If bonds are sold before the maturity date, when interest/profit rates are rising, you could suffer a substantial loss on your original investment.
- 1.6 Bonds can be redeemed (the original investment can be recovered) by the issuer before the maturity date. If this happens, the issuer will return your original investment in cash. If you decide to re-invest the money you receive in another bond, the market conditions that apply at that time may not be as good as they were when you made your original investment.
- 1.7 You may be exposed to liquidity risk when you face difficulty in finding a buyer when you want to sell your bonds. Therefore, you could suffer a substantial loss on your original investment as you sell at a significant discount to market value.
- 1.8 If you sell the bond before the maturity date, the sale price will depend on the prevailing market prices and these can be higher or lower than the initial purchase price, You may suffer a substantial loss on your original investment if the current price is substantially lower than initial purchase price.
- 1.9 If you wish to sell the bond purchased through the Bank, the Bank may repurchase it on best effort basis based on the prevailing market price under normal market circumstances, but the buying price may differ from the original selling price due to changes in market conditions.
- 1.10 The secondary market for the bond may not provide significant liquidity or may trade at prices based on the prevailing market conditions and may not be in line with your expectations.
- 1.11 If the bond is early redeemed, you may not be able to enjoy the same rates of return when you re-invest the proceeds in other investments.

PART C2: TERMS AND CONDITIONS GOVERNING NEGOTIABLE INSTRUMENTS OF DEPOSITS
