NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS - 30 JUNE 2021

GENERAL INFORMATION

The Bank is principally engaged in banking and related financial services, whilst its subsidiaries are principally engaged in the businesses of Islamic Banking, corporate finance and related advisory services, and the provision of nominee services. The Bank and its subsidiaries are collectively referred to as the "Group". There has been no significant change in the nature of these activities during the financial period.

FINANCIAL PERFORMANCE

The Group recorded a net profit of RM424 million for the first 6 months of 2021, an increase of RM118 million or 39% compared to the corresponding period last year. This was mainly due to lower impairment allowances of RM67 million as the economy was poised for a recovery following the plunge in the first half of 2020 brought about by the Covid-19 pandemic.

The Group's total income for the six-month financial period increased by RM82 million or 6%, derived mainly from a RM69 million or 38% increase in net fee and commission income.

Operating expenses were well managed and reduced by RM17 million or 3% against the corresponding period last year.

The Group and the Bank remained well capitalised with Common Equity Tier 1 capital ratios of 16.146% and 15.916%, Tier 1 capital ratios of 17.020% and 17.001%, and Total Capital ratios of 19.577% and 19.563% respectively.

ECONOMIC PERFORMANCE AND PROSPECTS

Malaysia's Gross Domestic Product ("GDP") recorded a smaller contraction of -0.5% in the first quarter of 2021 compared to -3.4% in the fourth quarter of 2020, mainly supported by improvements in domestic demand and the strong exports performance.

Notably, a nationwide Full Movement Control Order ("FMCO") was imposed on 1 June 2021, followed by the implementation of an Enhanced Movement Control Order ("EMCO") on 1 July 2021 in eight districts in Selangor and 14 localities in Kuala Lumpur following a steep increase in Covid-19 infections. The imposition of stricter containment measures amid the rising Covid-19 cases domestically led to further concerns over the economic outlook, uncertainties in investor sentiments and increased risk aversion towards domestic financial assets.

Given that the EMCO rolled out in Selangor and Kuala Lumpur affects an area that contributes 40% of total GDP and involved factory closures, we are likely to see downward pressure on exports into second half of 2021. The outlook for trade activities will depend on how well the pandemic is being managed, speed of the vaccination programme and how quickly the economy opens up.

While the Covid-19 pandemic will continue to exert downward pressure on earnings, Malaysia's financial system is expected to remain healthy with banks well capitalised to withstand potential stress and sustain credit intermediation in the economy.

1 BASIS OF PREPARATION

The accounting policies set out below have been applied consistently to the periods presented in these unaudited condensed interim financial statements and have been applied consistently, unless otherwise stated.

The unaudited condensed interim financial statements are presented in Ringgit Malaysia ("RM"), which is the Bank's functional currency. All financial information presented in RM have been rounded to the nearest thousand, unless otherwise stated.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS - 30 JUNE 2021 (continued)

1 BASIS OF PREPARATION (continued)

(a) Statement of compliance

The unaudited condensed interim financial statements of the Group and the Bank have been prepared under the historical cost convention except for the assets and liabilities which are stated at fair values as disclosed in the notes to the unaudited condensed interim financial statements: financial assets at FVTPL, financial investments at FVOCI, loans, advances and financing at FVTPL and derivative financial instruments. The unaudited condensed interim financial statements have been prepared in accordance with Malaysian Financial Reporting Standard ("MFRS") 134, International Accounting Standards 34 and Shariah requirements (operations of Islamic Banking).

The unaudited condensed interim financial statements incorporate all activities relating to Islamic Banking which have been undertaken by the Group in compliance with Shariah principles. Islamic Banking refers generally to the acceptance of deposits and granting of financing under Shariah principles.

The following accounting standards and amendments have been adopted by the Group and the Bank during the current period:

- Amendments to MFRS 16, Leases Covid-19-Related Rent Concessions beyond 30 June 2021
- Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16, Interest Rate Benchmark Reform Phase 2

Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16 - *Interest Rate Benchmark Reform* - *Phase 2* address issues that might affect the Group and the Bank as a result of the reform of an interest rate benchmark, including the effects of changes to contractual cash flows or hedging relationships arising from the replacement of an interest rate benchmark with an alternative benchmark rate.

(i) Change in basis for determining cash flows

The amendments require the Group and the Bank to account for a change in the basis for determining the contractual cash flows of a financial asset or financial liability that is required by interest rate benchmark reform by updating the effective interest rate of the financial asset or financial liability. As a result, no immediate gain or loss is recognised. This applies only when the change is necessary as a direct consequence of the reform, and the new basis for determining the contractual cash flows is economically equivalent to the previous basis.

(ii) Hedge accounting

The amendments provide exceptions to the hedge accounting requirements that will assist the Group and the Bank to maintain their existing hedging relationships post transition to the alternative benchmark rate. The Group and the Bank will continue to record any ongoing hedge ineffectiveness in profit or loss.

(iii) Disclosure

The amendments require the Group and the Bank to disclose additional information about the Group's and the Bank's exposure to risks arising from interest rate benchmark reform and related risk management activities.

34 CREDIT RISK

Credit risk is the risk of a financial loss to the Group and the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's and the Bank's maximum credit exposure on the financial assets without taking into account any collateral held or other credit enhancements of the Group and the Bank equal their carrying amount as reported in the statements of financial position. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Group and the Bank would have to pay if the obligations of the instruments issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the undrawn credit facilities granted to customers.
